

Music Video Project

Working with a group, you will produce a music video. The length of your video will vary, depending on the song you select, but most videos will be between 1-2 minutes. (The minimum length is one minute.)

1. Assign group members the jobs of director, choreographer, singers, and dancers. A group member can have more than one job (for example the director can also be a singer).
2. Select a song for your video. It should be a song that is school appropriate. You will be writing your own lyrics for the song.
3. Your group will be assigned a topic to sing about. You will need to see Ms. Ulrich for a "must include" list for your music video.
4. Decide upon a concept for your video. Where will it take place? What will you be doing in the video? Who will sing which parts? Will someone be dancing? Will you need props or basic scenery? I suggest you brainstorm in your group to come up with an outline for your ideas.

Project Due Dates:

Tuesday, May 13 - Song needs to be chosen and approved by Ms. Ulrich.

Friday, May 16 - A copy of the lyrics with your song needs to be turned in. (The sooner this is completed the earlier you can start filming).

Tuesday, May 20 - Storyboards Due

Wednesday, May 28 - Music Video Due!! (Final Product)

Recommended Products to Use for Video:

...On the iPad:

Video Star*

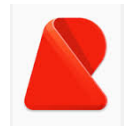

Animoto Video Maker

Videoliscious

Magisto

Replay/Stupeflix (Web)

Perfect Video
